

**FAMAG<sup>®</sup>**

**QUALITY TOOLS  
FOR WOODWORKING  
- MADE IN GERMANY**

For more than 155 years, FAMAG has been manufacturing high-quality drill bits and cutters for woodworking. Do you know the meaning of the name FAMAG? In those days, the company operated as an AG. Against this background the initials of Friedrich August Mühlhoff were combined with "AG" and the name FAMAG was born!

We stand for a **constant high quality and long service life of our tools**, which are manufactured in our production plant in Remscheid, in the centre of the German tool industry.

Tradition and innovation are not contradictory for us. Recently, FAMAG-Werkzeugfabrik was awarded the Reinhard and Max Mannesmann Innovation Prize by the supporting organisation "Förderverein Mannesmann Haus e.V."

**QUALITY MADE  
IN GERMANY**

## INNOVATION

Today, our production facility is equipped exclusively with **CNC machines, the most sophisticated robot technology** and **highly qualified professionals**, dedicated to the daily set-up of the machines and the quality assurance.

## OUR DEMAND

We focus the development and production of our tools on the needs of the professional craftsman. Therefore, we have the ambition to know the different applications of the professional users, in order to produce tools for the respective application.

Our product range includes approx. 4,000 articles - for almost every application in trade and industry we offer the suitable drilling tool for woodworking. Even the ambitious handyman will also find what he is looking for.

We can be reached immediately by phone and will answer any question, be it information on availability, price or assistance with applications or current delivery status.

## IN PARTNERSHIP

Distribution only through specialist dealers, both in Germany and abroad.

## STOCK AVAILABILITY

Usually, orders leave our warehouse the next day  
- often on the same day - and are thus available promptly.

## UNIQUE SELLING FEATURES

Unique selling points, patents, as well as great know-how in the  
application-oriented development of new drilling and cutting tools.

## SOLUTIONS FOR YOUR SPECIFIC NEEDS

As an experienced manufacturer with a long tradition and a philosophy that is dedicated to customer needs and high-quality standards, **we also manufacture customised products for individual applications** in addition to our standard products.

## ROBOTICS AND AUTOMATION

**Your partner for ready-to-use robot systems and automation in your production.**

We, the FAMAG robotics and automation team, will assemble the automation system you require from various separating and charging systems, industrial robots, gripping systems, control cabinets, conveyor systems, sensors and inspection options in an economical sensible way (only local distribution in Germany).
